FastPassCorp awarded Microsoft Gold Partner status

Copenhagen, Denmark - September 9 2009 – FastPassCorp A/S, a global supplier of IT automation and self-service productivity solutions for Windows Server and beyond, has announced that it has attained Gold Certified Partner status in the Microsoft Partner Program, with competency in the ISV/Software Solutions. Gold Certification confirms that FastPassCorp has demonstrated expertise with Microsoft-based technologies. Benefits of partnership include access, training and support, helping to give FastPassCorp a competitive edge in the market.

The Microsoft Partner Program demonstrates Microsoft's ongoing commitment to the success of technology partners worldwide. The program features a single, integrated framework that recognizes technology partner expertise and rewards the total impact that technology partners have in the technology marketplace.

FastPassCorp has attained the Competency for ISV/Software Solutions. To enroll in the ISV/Software Solutions Competency recognizes the skill and focus technology partners bring to a particular solution set. Partners must hold a successful record of developing and marketing packaged software based on Microsoft-based technologies.

Jesper Østergaard, Founder and Director of Business Development of FastPassCorp commented "FastPassCorp's worldwide customers have realized significant cost savings and productivity gains by partnering with us and adopting our enterprise self-service solutions.

Microsoft Windows Server technology and the .net framework play a key role in our solutions and in our customers' success. With the password self-service solution FastPass, our customers, both in the enterprise segment and in the Hosting Service Provider segment have improved their operational processes and added self-service to the users thus saving time and money in the Service Desk, increase the service to the end-users and strengthened security.

FastPassCorp's achievement of Gold Certified Partner status in the Microsoft Partner Program further underlines our ability to deliver effective, value-adding enterprise solutions and enabling the on-demand available workforce through a swift and rigorous password reset solution".
